

Australian Fish Names Standard

This Australian Standard® was prepared by the Fisheries Research and Development Corporation (FRDC) Fish Names Committee, the Standards Reference Body responsible for the technical content of the Australian Fish Names Standard.

It was approved by the FRDC Board on 12 June 2019.

This Standard was published on 24 June 2019.

This Standard includes amendments to Annex A that have been approved by the Fish Names Committee at meetings on 27 November 2015, 22 April 2016, 25 August 2016, 15 March 2017, 26 September 2017, 8 May 2018, 4 September 2018 and 8 May 2019.

The FRDC wishes to acknowledge the participation of the expert individuals who contributed to the development of this Standard through their representation on the Fish Names Committee.

Keeping Standards up-to-date

Australian Standards are living documents that reflect progress in science, technology and systems. To maintain their currency, all Standards are periodically reviewed, and new editions are published. Between editions, amendments may be issued.

Standards may also be withdrawn. It is important that readers assure themselves that they are using a current Standard, which should include any amendments that may have been published since the Standard was published.

Detailed information about Standards Development Organisation Standards, drafts, amendments and new projects can be found by visiting www.frdc.com.au, www.seafoodstandards.com.au and www.fishnames.com.au

Foreword

Need for standard fish names

Public and consumer confidence is supremely important to the wellbeing of Australia's \$5 billion seafood industry. Standard fish names:

- Improve management of food safety
- remove confusion
- strengthen consumer confidence
- create market efficiency
- facilitate product recall and traceability
- underpin effective species-based fisheries management, and
- Improve management of food safety.

Australia has over 5000 native species of finfish, and many more crustaceans, molluscs and other invertebrates. Several hundred of these species are important commercially, and many others support recreational activities such as fishing and diving. Australia also imports seafood products consisting of many other fish and invertebrate species from around the world to help satisfy the increasing demand for seafood.

Confusion over fish names has been caused by the numerous species Australia has on offer, a species being known by more than one name, or the same name being used for more than one species. As early as the 1920s, meetings were held in Sydney to discuss fish names as the local and regional variations were becoming apparent.

Extensive work on standardising names used for fish in Australia has been undertaken since the early 1980s by industry, governments, scientists and other stakeholders. Major progress has been made since 1992 as a result of strategic investments by the Fisheries Research and Development Corporation. Seafood Services Australia (SSA) accepted responsibility for standardising fish names in 2001 and continued to maintain this momentum. SSA was accredited as a standards setting body in 2006 and subsequently developed the first version of this standard. SSA ceased operations in 2013.

The Fisheries Research & Development Corporation was accredited as a Standards Development Organisation in 2013 and continued responsibility for the maintenance and ongoing development of this standard.

The Australian Fish Names Standard now includes agreed names for over 600 commercially important domestic and imported species of fish, and over 5,000 other domestic finfish. The process of assigning these agreed names drew on the expertise of several of the world's best fisheries taxonomists and other key stakeholders.

The FRDC has given autonomy to the Fish Names Committee for the development and maintenance of this Standard which is underpinned by rigorous policies and procedures that have been developed by the FRDC.

Purpose of this Standard

Use of standard fish names in Australia, as defined in this Standard, achieves outcomes that are consistent with the aims of industry and governments:

1. Improved monitoring and stock assessment enhance the sustainability of fisheries resources;
2. Increased efficiency in seafood marketing improves consumer confidence and industry profitability;
3. Improved accuracy in trade descriptions enables consumers to make better informed choices when purchasing seafood and reduces the potential for misleading and deceptive conduct;
4. Seafood related public health incidents and food safety risks can be more efficiently managed through improved labelling and species identification;
5. Marketability and consumer acceptability of species are enhanced through the use of standard fish names.

Preparation of this Standard

FRDC is accredited by the Standards Development and Accreditation Committee (SDAC)) of Standards Australia as a Standards Development Organisation. This Standard was prepared by FRDC's Fish Names Committee (FNC) in accordance with requirements set down for developing Australian Standards. The Standard is the result of a consensus among a wide range of stakeholders and an extensive process of consultation with the Fish Names Committee, end users, and the general public.

Fish Names Committee

The membership and operational procedures for the Fish Names Committee (FNC) are specified in the key FRDC policies and procedures;

- FRDC Standards Development Policy that sets the overall policy direction for FRDC in its standards development activities;
- FRDC Standards Development Procedure provides guidance on all standards development activities and applies to all Standards Reference Bodies including the FNC;
- Fish Names Committee Procedures provides guidance to the FNC on additional procedures that relate to the FNC only.

The FNC membership reflects the important role of key stakeholders in the fish names process and ensures that the committee collectively possesses skills and knowledge relating to:

- a) seafood production/harvesting
- b) seafood marketing and trade
- c) promotion and public relations
- d) seafood consumer issues
- e) fish taxonomy and nomenclature
- f) Seafood processing
- g) legislation and processes relevant to the import and export of seafood
- h) government operations and processes, including regulatory issues relevant to seafood
- i) industry leadership
- j) corporate governance including the operations of Boards or committees

The Fisheries Research & Development Corporation

Fisheries Research and Development Corporation (FRDC) is a co-funded partnership between its two stakeholders, the Australian Government and the fishing and aquaculture sectors. It was formed as a statutory corporation on 2nd July 1991, under the provisions of the Primary Industries Research and Development Act 1989 (the PIRD Act 1989) and is responsible to the Minister of Agriculture & Water Resources.

FRDC's role is to plan and invest in fisheries research, development and extension (RD&E) activities in Australia. This includes providing leadership and coordination of the monitoring, evaluating and reporting on RD&E activities, facilitating dissemination, extension and commercialisation. The FRDC achieves this through coordinating government and industry investment, including stakeholders to establish and address RD&E priorities. In addition, the FRDC monitors and evaluates the adoption of RD&E to inform future decisions.

FRDC has a significant responsibility in ensuring, on behalf of the Australian Government, that research is undertaken to assist in the management of the fisheries and aquaculture resource for ongoing sustainability. This means that a significant proportion of funding is directed at research that has a benefit for the three sectors of the fishing industry: commercial (wild catch and aquaculture), recreational and indigenous and also delivers a public good benefit to the Australian community.

Evolution of the FRDC

Since its inception, the FRDC has evolved from being essentially a granting body to one that adds value and strategic focus to RD&E for Australian fishing and Aquaculture. A summary of FRDC's evolution has been prepared and is available for download [PDF].

FRDC's Stakeholders

FRDC works with a diverse and geographically dispersed group of stakeholders and the four main sectors of fishing and aquaculture (aquaculture, commercial fishing, Indigenous fishing and recreational fishing) are not mutually exclusive. For example, Indigenous fishers may participate in customary fishing, conduct aquaculture and commercial fishing, and fish recreationally.

FRDC's stakeholders include:

- federal, state and territory governments, including fisheries and national resource managers
- all fishing and aquaculture sectors
- the Australian community, on whose behalf aquatic natural resources are managed
- seafood consumers
- the research community, including universities, government fisheries organisations, further education organisations (e.g. TAFE) international research organisations and private-sector research providers.

FRDC Revenue Base

Revenue for RD&E investment is based on a co-funding model between the Australian Government and the commercial fishing and aquaculture industries. Funds are collected by the Commonwealth, state and territory governments as part of their fisheries management activities. As stipulated in the PIRD Act, the FRDC's primary revenue source is based on:

- a. the Australian Government providing unmatched funds equivalent to 0.50 per cent of the average gross value of Australian fisheries production (AGVP) for the current year plus the two preceding years,
- b. fishers and aquaculturists providing contributions via government, and
- c. the Australian Government matches this amount up to a maximum of 0.25 per cent of AGVP.

Reporting

In addition to the requirements of the PIRD Act, the FRDC reports to its prescribed representative organisations and is subject to accountability and reporting obligations set out in the Public Governance, Performance and Accountability Act 2013. The FRDC produces an Annual Report for the Commonwealth Parliament and its stakeholders these are available for download from www.frdc.com.au.

1. Scope and Application

1.1 Scope

This Standard defines standard fish names for use in Australia and specifies when standard fish names are to be used. Annex A lists the approved standard fish names and forms part of this Standard.

1.2 Application

This Standard provides guidance on complying with requirements for the use of standard fish names in Australia, and is intended for use by people and businesses involved with fish or seafood in Australia.

2. Interpretative Guidelines

2.1 Compliance with this Standard

Requirements designated by the words 'shall' or 'shall not' are mandatory for organizations seeking to achieve compliance with this Standard.

Requirements designated by the words 'should' or 'should not' are recommended, but are not mandatory to achieve compliance with this Standard.

2.2 Abbreviations, definitions and terms

2.2.1 Application

For the purpose of this Standard, if there is conflict between the definitions in this document and those in other relevant standards or documents, the definitions herein take precedence.

2.2.2 Abbreviations

Abbreviation	Full Description
AFNS	Australian Fish Names Standard
FNC	Fish Names Committee
FRDC	Fisheries Research and Development Corporation
SFN	Standard Fish Name

2.2.3 Terms and definitions

Terms	Definition
annex	an annex to this document is an integral part of the Standard
attachments	an attachment to this document is for information and guidance only.
CAAB Code	(Codes for Australian Aquatic Biota) consists of eight digits and each species is assigned a unique CAAB Code. This number is unique to Australia.
fish	any aquatic vertebrate or invertebrate (excluding mammals and amphibians) in any form, including whole fish, or part thereof, in raw or cooked form, or as a fish product
obsolete name	a fish name (other than the current standard fish name) that has been used to describe a species of fish in a commercial setting
scientific name	the unique scientific name for a fish determined as per international convention and consisting of a genus name and a species name - the scientific names used in this Standard are the scientific names used in CSIRO's CAAB Database or as otherwise advised by CSIRO Marine and Atmospheric Research or another competent authority.
standard fish name	the standard fish name for a species of fish recorded in this standard. A Standard Fish Name (SFN) may cover a single species, or all species in a particular scientific family or group of fish.
taxonomic group name	an animal or plant's taxonomic group name as per international convention. The taxonomic group names used in this standard are those advised by CSIRO Marine and Atmospheric Research, or another competent authority
authority	The author associated with the scientific name Where an authority is in brackets, it indicates that the species is no longer in the genus where it was when originally described, for example <i>Pteria penguin</i> (Röding, 1798) indicates that when Röding originally described this species it was under another name i.e. not in the genus <i>Pteria</i> indicating a history of synonyms.

2.3 Footnotes

Footnotes are for information and guidance in interpretation.

3. References

3.1 Application and format

- a) If this Standard refers to another document, the other document is a referenced document.
- b) Where the edition (or version) of the referenced document is uniquely identified, then that edition (or version) applies.
- c) Where the edition (or version) of the referenced document is not uniquely identified, then the applicable edition (or version) is that which is current at the date upon which the document is published.

3.2 Referenced documents

- I. Standards Development Policy sets the overall policy direction for FRDC in its standards development activities;
- II. BP 21 Procedure - Standards Development provides guidance on all standards development activities and applies to all standards development committees (SDC's);
- III. BP 33 Fish Names Committee Procedures provides additional FNC specific guidance on the operations of the FNC.

4. Requirements for using Standard Fish Names

4.1 Use of Standard Fish Names

4.1.1 When fish are sold or traded to consumers

Fish sold to consumers (e.g., retail sales and restaurants) shall be identified at the point of sale by the Standard Fish Name (SFN) specified for that species in Annex A of this Standard and may also be identified by its scientific name.

4.1.2 When fish are sold or traded other than directly to consumers

Fish sold other than directly to consumers (e.g., wholesale, export, import) shall be identified by either the SFN or scientific name for that species.

4.1.3 Communication of Fish Names

In publications by scientists, recreational fishers, chefs, media, teachers, fisheries managers, and others; fish shall be identified by either their SFN or the scientific name for that species.

4.1.4 Standard Fish Names - Scope and Priority

A Standard Fish Name (SFN) may cover a single species, or all species in a particular scientific family or group of fish.

Fish should be identified by the SFN for that particular species only. However, the SFN for the scientific group or family to which a fish belongs may be used if:

- the fish does not have a SFN for that particular species, or
- the fish is in a batch¹ of different species of fish, all of which are from the same scientific group or family, AND
- using the SFN for the scientific group or family to which a fish belongs, does not mislead, misrepresent or confuse the identification of the fish.

¹ Example: a batch of fish consisting of Dusky Flathead and Tiger Flathead may be identified by the SFN Flathead, which covers all species in the Flathead family.

In any instance where a group name is used the group name may be shown capitalised² in order to indicate that it is a group name.

Some group names listed in this standard display a pluralisation in brackets. When displaying these group names the pluralised form is optional³.

4.2 Use of other fish names

4.2.1 When other fish names may be used

When a SFN is required to be used under this Standard, species of fish that do not have a SFN specified in Annex A may, subject to 4.2.2, be identified by a name that is commonly used for that species in Australia or overseas.

4.2.2 Notification of use of other fish names

A person or business using another fish name (as per 4.2.1) shall notify the FNC through FRDC of that use within 30 days. FRDC will include all such notifications received in accordance with this subsection on the agenda of the next FNC meeting.

The FNC may:

- a) initiate a proposal for a SFN to be assigned for that species, or
- b) require the person or business using the other name to submit an application for a SFN to be assigned for that species of fish

4.2.3 Display of obsolete fish names

A person or business may display of an obsolete fish name on their point of sale labels only if:

- a) the correct standard fish name is displayed in a more prominent position and larger text than, and above the obsolete name, and
- b) the obsolete name is qualified by the use of brackets. A qualifying statement e.g. “formerly sold here as” may also be added in the brackets.

2 Example: a batch of unsorted fish from the family Platycephalidae could be sold with the label displaying Flathead as the applicable group name or could also be shown as FLATHEAD to indicate use of a group name rather than an individual species SFN

3 Example: a batch of fish from the genus Emmelichthys could be sold using a label displaying any of the following: Redbait, Redbaits, Redbait(s), REDBAIT, REDBAITS or REDBAIT(S).

Annex A – List of Standard Fish Names

This Annex forms part of this standard

This Annex lists approved standard fish names and is an integral part of the Australian Fish Names Standard.

Lists of standard fish names are available from www.fishnames.com.au . Hard copies of the Standard are available from

Fisheries Research and Development Corporation www.frdc.com.au
SAI Global <http://infostore.saiglobal.com/store/>

Fish Names Websites

Current versions of this Standard (including Annex A), fish names procedures and Standard Fish Names application forms can be found at: the following web addresses

Searchable database of Standard Fish Names www.fishnames.com.au
Information about the Fish Names Standard and the applications process <http://seafoodstandards.com.au/seafood-standards/Pages/default.aspx>

Format and content

Annex A may be in electronic or hard copy form and shall, when the information exists, include at least: Standard Fish Name; Scientific name; CAAB Code; and where possible Authority.

Updating Annex A

Annex A shall be updated as soon as practicable after a new or amended SFN has been approved. Revised scientific names shall be incorporated when FRDC is advised in accordance with this standard.

FRDC shall make the current version of the Australian Fish Names Standard available for electronic purchase and download from the FRDC website at www.fishnames.com.au

A-1 Invertebrates – Jellyfishes, Sea Urchins and Sea Cucumbers

CAAB	Standard Name	Scientific Name	Authority	App No
11 120000	JELLYFISHES	Class Scyphozoa - undifferentiated		
25 200000	SEA URCHIN	Class Echinoidea - undifferentiated		
25 211001	Longspined Sea Urchin	<i>Centrostephanus rodgersii</i>	(A. Agassiz, 1863)	App 295
25 211002	Western Longspined Sea Urchin	<i>Centrostephanus tenuispinus</i>	H.L. Clark, 1914	App 296
25 211009	Needlespined Sea Urchin	<i>Diadema setosum</i>	(Leske, 1778)	App 297
25 242011	Collector Sea Urchin	<i>Tripneustes gratilla</i>	(Linnaeus, 1758)	App 298
25 247001	Shortspined Sea Urchin	<i>Heliocidaris erythrogramma</i>	(Valenciennes, 1846)	App 299
25 247002	Red Sea Urchin	<i>Heliocidaris tuberculata</i>	(Lamarck, 1816)	App 300
25 247003	Burrowing Sea Urchin	<i>Echinometra mathaei</i>	(Blainville, 1825)	App 301
25 247009	Kina	<i>Evechinus chloroticus</i>	(Valenciennes, 1846)	App 302
25 415000	SEA CUCUMBER	Holothuriidae & Stichopodidae - undifferentiated		App 200
25 416001	Deepwater Redfish (Sea Cucumber)	<i>Actinopyga echinites</i>	(Jaeger, 1833)	App 173
25 416002	Surf Redfish (Sea Cucumber)	<i>Actinopyga mauritiana</i>	(Quoy & Gaimard, 1833)	App 175
25 416003	Lollyfish (Sea Cucumber)	<i>Holothuria atra</i>	Jaeger, 1833	App 182
25 416004	Sandfish (Sea Cucumber)	<i>Holothuria scabra</i>	Jaeger, 1833	App 187
25 416006	White Teatfish (Sea Cucumber)	<i>Holothuria fuscogilva</i>	Cherbonnier, 1980	App 184
25 416007	Blackfish (Sea Cucumber)	<i>Actinopyga miliaris</i>	(Quoy & Gaimard, 1833)	App 176
25 416009	Stonefish (Sea Cucumber)	<i>Actinopyga lecanora</i>	(Jaeger, 1833)	App 174
25 416011	Redfish (Sea Cucumber)	<i>Actinopyga obesa</i>	(Selenka, 1867)	App 177
25 416013	Leopardfish (Sea Cucumber)	<i>Bohadschia argus</i>	(Jaeger, 1833)	App 285
25 416014	Blackspotted Sea Cucumber	<i>Pearsonothuria graeffei</i>	(Semper, 1868)	App 278

CAAB	Standard Name	Scientific Name	Authority	App No
25 416015	Chalkfish (Sea Cucumber)	<i>Bohadschia marmorata</i>	(Jaeger, 1833)	App 286
25 416017	Snakefish (Sea Cucumber)	<i>Holothuria coluber</i>	Semper, 1868	App 279
25 416020	Pinkfish (Sea Cucumber)	<i>Holothuria edulis</i>	Lesson, 1830	App 183
25 416031	Golden Sandfish (Sea Cucumber)	<i>Holothuria lessoni</i>	Massin, Uthicke, Purcell, Rowe & Samyn, 2009	App 186
25 416032	Elephant's Trunkfish (Sea Cucumber)	<i>Holothuria fuscopunctata</i>	Jaeger, 1833	App 185
25 416033	Black Teatfish (Sea Cucumber)	<i>Holothuria whitmaei</i>	Bell, 1887	App 188
25 416055	Brownspotted Sea Cucumber	<i>Holothuria impatiens</i>	(Forskål, 1775)	App 280
25 416064	Burrowing Blackfish (Sea Cucumber)	<i>Actinopyga spinea</i>	Cherbonnier, 1980	App 178
25 416065	Brown Sandfish (Sea Cucumber)	<i>Bohadschia vitiensis</i>	(Semper, 1868)	App 287
25 416070	Deepwater Blackfish (Sea Cucumber)	<i>Actinopyga palauensis</i>	Panning, 1944	App 277
25 417001	Greenfish (Sea Cucumber)	<i>Stichopus chloronotus</i>	Brandt, 1835	App 189
25 417003	Prickly Redfish (Sea Cucumber)	<i>Thelenota ananas</i>	(Jaeger, 1833)	App 191
25 417004	Amberfish (Sea Cucumber)	<i>Thelenota anax</i>	H.L. Clark, 1921	App 192
25 417006	Curryfish (Sea Cucumber)	<i>Stichopus hermanni</i>	Semper, 1868	App 190
25 417007	Selenka's Sea Cucumber	<i>Stichopus horrens</i>	Selenka, 1868	App 281
25 417009	Brownmottled Sea Cucumber	<i>Australostichopus mollis</i>	(Hutton, 1872)	App 282
25 417012	Curryfish vastus (Sea Cucumber)	<i>Stichopus vastus</i>	Sluiter, 1887	App 283
25 417014	Ocellated Sea Cucumber	<i>Stichopus ocellatus</i>	Massin, Uthicke, Purcell, Rowe & Samyn, 2009	App 284

A-2 Invertebrates – Molluscs including Bivalves, Univalves and Cephalopods

CAAB	Standard Name	Scientific Name	Authority	App No
23 220001	Blue Mussel	<i>Mytilus galloprovincialis</i>	Lamarck, 1819	
23 220751	Green Mussel	<i>Perna canaliculus</i>	(Gmelin, 1791)	
23 226901	COCKLES	<i>Anadara spp.</i>		App 199a
23 236000	PEARL OYSTER (s)	Pteriidae - undifferentiated		
23 236001	Pale Pearl Oyster	<i>Pinctada albina</i>	(Lamarck, 1819)	App 196
23 236002	Blacklip Pearl Oyster	<i>Pinctada margaritifera</i>	(Linnaeus, 1758)	App 161
23 236003	Silverlip Pearl Oyster	<i>Pinctada maxima</i>	(Jameson, 1901)	App 194
23 236004	Penguin Wing Oyster	<i>Pteria penguin</i>	(Röding, 1798)	App 198
23 236901	PEARL OYSTERS	<i>Pinctada spp.</i>		App 195
23 236902	WING PEARL OYSTERS	<i>Pteria spp.</i>		App 197
23 255901	OYSTERS	Ostreidae & Pteriidae spp.		
23 257001	Pacific Oyster	<i>Crassostrea gigas</i>	(Thunberg, 1793)	
23 257002	Native Oyster	<i>Ostrea angasi</i>	G.B. Sowerby II, 1871	
23 257006	Sydney Rock Oyster	<i>Saccostrea glomerata</i>	(Gould, 1850)	
23 270000	SCALLOPS	Pectinidae - undifferentiated		
23 270001	Ballot's Saucer Scallop	<i>Ylistrum balloti</i>	(Bernardi, 1861)	App 253
23 270003	Saucer Scallop	<i>Amusium pleuronectes</i>	(Linnaeus, 1758)	App 254
23 270007	Commercial Scallop	<i>Pecten fumatus</i>	Reeve, 1852	
23 270901	SAUCER SCALLOPS	<i>Amusium pleuronectes and Ylistrum balloti</i>		App 252
23 359001	Pipi	<i>Donax deltoides</i>	Lamarck, 1818	App 255
23 359901	PIPIS	<i>Donax spp.</i>		
23 380019	Venus Clam	<i>Venerupis largillierti</i>	(Philippi, 1849)	App 273
23 380901	SURF CLAMS	<i>Dosinia spp.</i>		
23 380902	VONGOLES	<i>Katelysia spp.</i>		App 199
23 380903	BABY CLAMS	<i>Meretrix spp.</i>		
23 380929	VENUS CLAMS	<i>Venerupis spp.</i>		

CAAB	Standard Name	Scientific Name	Authority	App No
23 380946	AUSTRALIAN VENUS CLAMS	<i>Venerupis spp (except for Venerupis largillierti)</i>		App 274
23 607901	CUTTLEFISHES	<i>Sepia spp.</i>		
23 615000	SQUIDS	Order Teuthoidea - undifferentiated		
23 617000	LOLIGO SQUID	Loliginidae - undifferentiated		App 040
23 617005	Southern Calamari	<i>Sepioteuthis australis</i>	Quoy & Gaimard, 1832	
23 617006	Northern Calamari	<i>Sepioteuthis lessoniana</i>	Ferussac in Lesson, 1831	
23 617010	Luminous Bay Squid	<i>Uroteuthis noctiluca</i>	(Lu, Roper & Tait, 1985)	App 118
23 617011	Californian Squid	<i>Doryteuthis opalescens</i>	(Berry, 1911)	
23 636004	Gould's Squid	<i>Nototodarus gouldi</i>	(McCoy, 1888)	
23 636006	New Zealand Arrow Squid	<i>Nototodarus sloanii</i>	(Gray, 1849)	App 039
23 636015	Giant Squid	<i>Dosidicus gigas</i>	(d'Orbigny, 1835)	App 059
23 636901	ILLEX SQUIDS	<i>Illex spp.</i>		App 058
23 659000	OCTOPUS	Octopodidae, Eledonidae, Megaleledonidae, Bathypolypodidae, Enterocotopodidae - undifferentiated		App 024
23 659004	Pale Octopus	<i>Octopus pallidus</i>	Hoyle, 1885	App 217
23 659006	Gloomy Octopus	<i>Octopus tetricus</i>	Gould, 1852	App 218
23 659901	OCTOPUS	<i>Octopus spp</i>		App 024
23 659903	BABY OCTOPUSES	<i>Octopus aegina & Octopus sp. A</i>		App 023
24 038000	ABALONE	Haliotidae - undifferentiated		App 025
24 038001	Tropical Abalone	<i>Haliotis asinina</i>	Linnaeus, 1758	App 271
24 038002	Brownlip Abalone	<i>Haliotis rubra conicopora</i>	Péron, 1816	
24 038003	Paua	<i>Haliotis iris</i>	Gmelin, 1791	
24 038004	Greenlip Abalone	<i>Haliotis laevigata</i>	Donovan, 1808	
24 038005	Roe's Abalone	<i>Haliotis roei</i>	Gray, 1826	
24 038006	Blacklip Abalone	<i>Haliotis rubra rubra</i>	Leach, 1814	
24 038751	Tiger Abalone	<i>Haliotis laevigata x Haliotis rubra</i>		App 270

CAAB	Standard Name	Scientific Name	Authority	App No
24 045001	Green Turban Shell	<i>Turbo marmoratus</i>	Linnaeus, 1758	App 307
24 045002	Smooth Turban Shell	<i>Turbo imperialis</i>	Gmelin, 1791	App 308
24 045003	Rough Turban Shell	<i>Lunella torquata</i>	(Gmelin, 1791)	App 292
24 045004	Wavy Periwinkle	<i>Lunella undulata</i>	(Lightfoot, 1786)	App 289
24 045904	TURBAN SHELLS	<i>Turbinidae spp</i>		App 290
24 046001	Trochus	<i>Tectus niloticus</i>	(Linnaeus, 1758)	
24 094901	PERIWINKLES	Trochidae, Margaritidae, Solariellidae, & Tegulidae spp		
24 125000	CONCH	Strombidae - undifferentiated		App 038
24 200230	Chilean Loco	<i>Concholepas concholepas</i>	(Bruguière, 1789)	
24 207900	Bailer Shell	Volutidae: Amoriinae & Cymbiinae - undifferentiated		
27 528904	GOOSENECK BARNACLES	<i>Lepas spp.</i>		App 325

A-3 Invertebrates – Crustaceans

CAAB	Standard Name	Scientific Name	Authority	App No
28 030000	MANTIS SHRIMPS	Order Stomatopoda - undifferentiated		App 313
28 036018	Clubfoot Mantis Shrimp	<i>Gonodactylus chiragra</i>	(Fabricius, 1781)	App 324
28 038001	Keeled Mantis Shrimp	<i>Odontodactylus cultrifer</i>	(White, 1851)	App 322
28 038002	Japanese Mantis Shrimp	<i>Odontodactylus japonicus</i>	(de Haan, 1844)	App 323
28 046005	Striped Mantis Shrimp	<i>Lysiosquilla maculata</i>	(Fabricius, 1793)	App 321
28 051003	Smooth Mantis Shrimp	<i>Belosquilla laevis</i>	(Hess, 1865)	App 319
28 051033	Woodmason's Mantis Shrimp	<i>Erugosquilla woodmasoni</i>) (Kemp, 1911)	App 314
28 051036	Rapacious Mantis Shrimp	<i>Harpiosquilla harpax</i>	(de Haan, 1844)	App 315
28 051039	Giant Mantis Shrimp	<i>Harpiosquilla stephensoni</i>	Manning, 1969	App 316
28 051052	Blackspot Mantis Shrimp	<i>Oratosquilla interrupta</i>	(Kemp, 1911)	App 317
28 051054	Fivetooth Mantis Shrimp	<i>Oratosquilla quinquedentata</i>	(Brooks, 1886)	App 318
28 051055	Stephenson's Mantis Shrimp	<i>Oratosquilla stephensoni</i>	(Manning, 1978)	App 320
28 700000	KRILL	Order Euphausiacea - undifferentiated		App 204
28 710000	PRAWNS	Penaeoidea & Caridea - undifferentiated		
28 711023	Western School Prawn	<i>Metapenaeus dalli</i>	Racek, 1957	App 221
28 711026	Blue Endeavour Prawn	<i>Metapenaeus endeavouri</i>	(Schmitt, 1926)	App 222
28 711027	Red Endeavour Prawn	<i>Metapenaeus ensis</i>	(De Haan, 1844)	App 223
28 711029	Eastern School Prawn	<i>Metapenaeus macleayi</i>	(Haswell, 1879)	App 220
28 711035	Australian Rose Prawn	<i>Parapenaeus australiensis</i>	Dall, 1957	App 236
28 711044	Brown Tiger Prawn	<i>Penaeus esculentus</i>	Haswell, 1879	App 224
28 711045	Redleg Banana Prawn	<i>Penaeus indicus</i>	H. Milne Edwards, 1837	App 227
28 711046	Australian Kuruma Prawn	<i>Penaeus pulchricaudatus</i>	Stebbing, 1914	App 269

CAAB	Standard Name	Scientific Name	Authority	App No
28 711047	Western King Prawn	<i>Melicertus latisulcatus</i>	(Kishinouye, 1896)	App 232
28 711048	Redspot King Prawn	<i>Melicertus longistylus</i>	(Kubo, 1943)	
28 711050	Banana Prawn	<i>Penaeus merguensis</i>	De Man, 1888	App 228
28 711051	Black Tiger Prawn	<i>Penaeus monodon</i>	Fabricius, 1798	
28 711052	Eastern King Prawn	<i>Melicertus plebejus</i>	(Hess, 1865)	App 231
28 711053	Grooved Tiger Prawn	<i>Penaeus semisulcatus</i>	De Haan, 1844	App 225
28 711077	Blue Prawn	<i>Penaeus stylirostris</i>	Stimpson, 1874	App 080
28 711079	Vannamei Prawn	<i>Penaeus vannamei</i>	Boone, 1931	App 075
28 711901	BAY PRAWNS	<i>Metapenaeus bennettiae</i> & <i>Metapenaeus insolitus</i>		
28 711902	ENDEAVOUR PRAWNS	<i>Metapenaeus endeavouri</i> & <i>Metapenaeus ensis</i>		
28 711904	SCHOOL PRAWNS	<i>Metapenaeus dalli</i> & <i>Metapenaeus macleayi</i>		App 237
28 711907	BANANA PRAWNS	<i>Penaeus indicus</i> & <i>Penaeus merguensis</i>		
28 711908	KING PRAWNS	<i>Melicertus latisulcatus</i> & <i>Melicertus plebejus</i>		
28 711930	GREASYBACK PRAWNS	<i>Trachysalambria spp.</i>		App 272
28 711932	TIGER PRAWNS	<i>Penaeus esculentus</i> & <i>Penaeus semisulcatus</i>		App 268
28 712001	Red Prawn	<i>Aristaeomorpha foliacea</i>	(Risso, 1827)	App 230
28 712003	Pink Striped Prawn	<i>Aristeus virilis</i>	Spence Bate, 1881)	App 310
28 712008	Giant Scarlet Prawn	<i>Aristaeopsis edwardsiana</i>	(Johnson, 1867)	App 229
28 714005	Royal Red Prawn	<i>Haliporoides sibogae</i>	(de Man, 1907)	
28 720015	Pygmy Prawn	<i>Acetes sibogae</i>	Hansen, 1919	App 233
28 756901	FRESHWATER PRAWNS	<i>Macrobrachium spp.</i>		
28 770005	White Carid Prawn	<i>Heterocarpus sibogae</i>	De Man, 1917	App 311
28 770007	Red Carid Prawn	<i>Heterocarpus woodmasoni</i>	Alcock, 1901	App 312
28 786000	SCAMPI	Nephropidae - undifferentiated		
28 786001	Australian Scampi	<i>Metanephrops australiensis</i>	(Bruce, 1966)	App 309

CAAB	Standard Name	Scientific Name	Authority	App No
28 795001	White Yabby	<i>Cherax albidus</i>	Clark 1936	App 303
28 795004	Redclaw	<i>Cherax quadricarinatus</i>	(von Martens, 1868)	
28 795007	Marron	<i>Cherax cainii</i>	Austin, 2002	
28 795126	Margaret River Marron	<i>Cherax tenuimanus</i>	(Smith, 1912)	App 304
28 795901	YABBIES	<i>Cherax spp. except C. quadricarinatus, C. cainii & C. tenuimanus</i>		
28 820001	Southern Rock Lobster	<i>Jasus edwardsii</i>	(Hutton, 1875)	
28 820002	Eastern Rock Lobster	<i>Sagmariasus verreauxi</i>	(H. Milne-Edwards, 1851)	
28 820005	Western Rock Lobster	<i>Panulirus cygnus</i>	George, 1962	
28 820006	Ornate Rock Lobster	<i>Panulirus ornatus</i>	(Fabricius, 1798)	App 246
28 820009	Scalloped Rock Lobster	<i>Panulirus homarus</i>	(Linnaeus, 1758)	App 247
28 820011	Fourspine Rock Lobster	<i>Panulirus penicillatus</i>	(Olivier, 1791)	App 248
28 820012	Mud Rock Lobster	<i>Panulirus polyphagus</i>	(Herbst, 1793)	App 251
28 820013	Painted Rock Lobster	<i>Panulirus versicolor</i>	(Latreille, 1804)	App 249
28 820016	Longleg Rock Lobster	<i>Panulirus longpipes</i>	(A. Milne Edwards, 1868)	App 250
28 820901	TROPICAL ROCK LOBSTERS	<i>Panulirus spp. except P. cygnus</i>		App 214
28 820902	CHAMPAGNE LOBSTERS	<i>Linuparus spp.</i>		
28 821001	Whitetail Bug	<i>Ibacus alticrenatus</i>	Bate, 1888	App 088
28 821002	Serrate Bug	<i>Ibacus pubescens</i>	Holthuis, 1960	App 258
28 821003	Western Balmain Bug	<i>Ibacus novemdentatus</i>	Gibbes, 1850	App 259
28 821004	Balmain Bug	<i>Ibacus peronii</i>	Leach, 1815	App 260
28 821007	Mud Bug	<i>Thenus parindicus</i>	Burton & Davie, 2007	App 264
28 821008	Sand Bug	<i>Thenus australiensis</i>	Burton & Davie, 2007	App 265
28 821009	Shortfoot Bug	<i>Ibacus brevipes</i>	Bate, 1888	App 261
28 821010	Honey Bug	<i>Ibacus brucei</i>	Holthuis, 1977	App 262

CAAB	Standard Name	Scientific Name	Authority	App No
28 821019	Smooth Bug	<i>Ibacus chacei</i>	Brown & Holthuis, 1998	App 263
28 821901	BALMAIN BUGS	<i>Ibacus spp.</i>		
28 821902	SLIPPER LOBSTERS	<i>Scyllarides spp.</i>		
28 821903	MORETON BAY BUGS	<i>Thenus spp.</i>		
28 821904	BUGS	<i>Ibacus & Thenus spp.</i>		App 057
28 850000	CRABS	Infraorder Brachyura - undifferentiated		
28 865001	Spanner Crab	<i>Ranina ranina</i>	(Linnaeus, 1758)	
28 880901	SNOW CRABS	<i>Chionoecetes spp.</i>		App 022
28 910001	Eastern Crystal Crab	<i>Chaceon bicolor</i>	Manning & Hothuis, 1989	App 245
28 910003	Crystal Crab	<i>Chaceon albus</i>	Davie, Ng & Dawson, 2007	App 244
28 910901	CRYSTAL CRABS	<i>Chaceon spp</i>		App 201
28 911001	Coral Crab	<i>Charybdis feriata</i>	(Linnaeus, 1758)	
28 911004	Velvet Crab	<i>Nectocarcinus tuberculatus</i>	A. Milne Edwards, 1860	App 073
28 911005	Blue Swimmer Crab	<i>Portunus armatus</i>	(A. Milne Edwards, 1861)	
28 911007	Orange Mud Crab	<i>Scylla olivacea</i>	(Herbst, 1796)	App 256
28 911008	Giant Mud Crab	<i>Scylla serrata</i>	(Forsskål, 1775)	App 257
28 911122	Keeled Mud Crab	<i>Scylla paramamosain</i>	Estampador, 1949	App 288
28 911901	SAND CRABS	<i>Ovalipes spp.</i>		
28 911902	MUD CRABS	<i>Scylla spp.</i>		
28 911903	BLUE SWIMMER CRABS	<i>Portunus pelagicus sensu lato</i>	(Linnaeus, 1758)	
28 915002	Giant Crab	<i>Pseudocarcinus gigas</i>	(Lamarck, 1818)	
28 916001	Champagne Crab	<i>Hypothalassia acerba</i>	Koh & Ng, 2000	App 275
28 916002	Eastern Champagne Crab	<i>Hypothalassia armata</i>	(De Haan, 1835)	App 276
28 916901	CHAMPAGNE CRABS	<i>Hypothalassia spp.</i>		App 160

Fisheries Research and Development Corporation

The FRDC develops Australian Standards and other documents of public benefit and national interest. These Standards are developed through an open process of consultation and consensus, in which all interested parties are invited to participate.

The FRDC is an accredited Standards Development Organisation with the Standards and Accreditation Board of Standards Australia.

Further information visit: <http://seafoodstandards.com.au/seafood-standards/Pages/default.aspx>

Australian Standards

Committees of experts from industry, governments, consumers and other relevant sectors prepare Australian Standard® brand standards. The requirements or recommendations contained in published Standards are a consensus of the views of representative interests and also take account of comments received from other sources. They reflect the latest scientific and industry experience. Australian Standards are kept under continuous review after publication and are updated regularly to take account of changing technology.

Standards Development and Accreditation Committee

The accreditation responsibilities of the Standards Australia Board, which have been delegated to the Standards Development and Accreditation Committee (SDAC), are:

- Accrediting (or, where appropriate, declining to accredit) bodies in Australia to develop and maintain Australian Standards®.
- Withdrawing any accreditation granted.
- Setting policies and guidelines in relation to the preparation, maintenance, development and publication of Australian Standards®.
- Auditing accredited bodies to ensure compliance with all policies and guidelines of the SDAC.

SDAC has replaced the former Accreditation Board for Standards Development Organisations.

For further information visit: <https://www.standards.org.au/standards-development/accreditation>
